

# Henry Sutton's Plate Viewer

## Display | Heritage Reading Room

This exhibition is based on topics of the current Twilight Talks series, *Innovation*. Henry Sutton's plate viewer with which he created the glass plate image being used as artwork for the series will be on display for the duration of the series. Courtesy Federation University Historical Collection.

Our Collection Volunteers have also placed on display articles from books and magazines from Our Collection of heritage books and magazines that relate to the series.
